Application for Permit
RECOMMENDATION FORM

Application No.: 63-34652
Applicant's Name: Cat Creek Energy, LLC.

Recommendation:

- a) ☒ I do not oppose approval of this application.
b) ☐ I do not oppose approval of this application if it is conditioned as follows:
c) ☐ I oppose approval of this application for the following reasons:
d) ☒ Additional comments:

Application describes Cat Creek Reservoir, but no information on the proposed project design and/or construction was provided in Section 7b of the application. Appears this is the same project as proposed in Application 63-34403; with a proposed dam height of 100 feet, and total reservoir capacity of 100,000 acre-feet. All dams equal to or exceeding 10 feet in height and impounding a reservoir 50 acre-feet or more must be designed by an Idaho licensed engineer (Idaho Code §42-1712). An *Application for Construction or Enlargement of a New or Existing Dam* will need to be completed and submitted to IDWR Dam Safety Program; design plans and specifications may be submitted with the application or may be submitted separately after receiving a water right permit. Do not commence construction until engineer has submitted plans and specifications to IDWR Dam Safety for review and has obtained subsequent written approval.
